EXPERIENCE

Head Engineer (Bitcoin Mining Farm)
2022 - Now

I am applying for a position focused on budget management, project design, operational efficiency, SOP development, maintenance, and problem-solving within the Bitcoin mining farm sector.

Freelance Fullstack Developer
2020 - 2022

I am applying for coding roles with a strong background in requirement gathering and maintenance across various platforms, including mobile apps, websites, Point of Sale systems, and custom inventory solutions.
